

Fact Sheet

MyCloudFulfillment

MyCloudFulfillment is a total logistics service solution provider for e-commerce business or omnichannel management. Our solutions can streamline and simplify omnichannel execution in e-commerce retailers such as Lazada, Shopee, Consignments, and many more, eliminating the hassles of storage and stock management.

Our system automates sales orders and stock management through various channels with APIs (Application Program Interface). The system provides sellers a more efficient way to streamline Supplychain, order management. On top of that, sellers can leverage Big Data to generate Business Intelligence and Predictive Analytics to improve business decisions, optimize stock management to avoid piling or short stock, apply SKU production predictability to prevent sunk cost and implement sales analysis to plan future strategies. All these services are made to “simplify your business and generate sustainable growth.”

Our Services

1. Fulfillment Service

- **Store:** Offering standard fulfillment services for items of all sizes in both standard storage and cold room storage at 24 Celsius degrees around the clock. Items are kept in separate categories. We also offer an inventory program to enable better planning in production and stock where the real-time data can be viewed on the online platform.
- **Pick QC and Pack:** Offering pick, check and pack order services tailored to meet special needs of merchants or products with a 24-hours packing services e.g. special QC, shoes wiping clean, thread cutting, cloth folding, ironing, organizing added value product set , making product basket, adding thank you card, gift wrapping etc.
- **Ship:** Providing World Wide Shipping in multi-channels i.e. On-demand service, Next Day Delivery with Thai Postal Service, Kerry, SCG Express.

2. **MyCloud System** offers a tracking system of all items in all channels with APIs. All orders of all channels will be stored in one place to ensure consistent and accurate order process in all sales channels as Lazada, Shopee, JD.com, and other websites in real time.
3. **Partner Service** offers several partner services i.e. E-commerce Operation, Marketplace Management, Digital Marketing.
